Profile

Salmon pink. Lush red raspberries, strawberries and cherries greet the nose with mineral notes that balance the watermelon tinged tangy berry and lime flavors of this well crafted dedicated Grenache Rosé.

Vineyard

We have 1.5 acres of estate Grenache for our dedicated Rosé. Our grapes were harvested from our estate vineyard located in the Mokelumne River AVA of the Lodi Appellation. Our Grenache grape clones come from both the famous French Château de Beaucastel Winery in the Châteauneuf-du-Pape region and from the renowned Alban Grenache clone. The cool nighttime breezes from the Mokelumne River nearby gives the grapes ripe, fruity flavors with excellent balance.

Winemaking

Our estate Grenache grapes are grown under the Lodi Rules for sustainable winegrowing. They were hand-picked and the majority of the grapes were whole cluster pressed, with the remainder crushed and cold-soaked before pressing. The grapes were harvested in the early morning to keep acidity at its highest, providing the vibrancy in the wine. The juice is then cool fermented in temperature controlled stainless steel tanks to highlight the pure Lodi fruit expressions.

Pairing

Try with prosciutto and ripe tomatoes, quiche and pork tenderloin.
