2024 Jolie

New Release!

Profile

Jolie is back! Inspired by a French medieval city where variations of this blend are commonplace, our blend of Grenache Blanc and Viognier has bright tropical notes and a round palate. Less brawny than the inaugural 2022, this vintage shows more definition and elegance than pure strength. Think POG juice, pina coladas, and lavender.

Vineyard

The Grenache Blanc comes from our estate vineyard located in the Mokelumne River AVA. Our climate is very similar to that of the Southern Rhône with cool nighttime Delta breezes allowing us to retain an excellent balance of acidity and fruit. Characterized by a dark, rich, peaty soil series and elevation below sea level, the Viognier in this blend comes from Under the Sea vineyard located in the Delta reaches.

Winemaking

All of our grapes are hand-picked, hand-sorted, and immediately whole cluster pressed. We harvest early in the morning to capture natural acidity, providing vibrancy to the wine. The juice is fermented cool in temperature controlled stainless steel tanks to highlight the pure fruit expressions. Blended post-fermentation, this wine is then sur lie aged in tank until bottling.

Pairing

Lamb chop with rosemary and thyme, duck confit, bacon wrapped shrimp, and chicken salad.
